II · COLOUR

Gold, *on black.*

Eight core tokens from the live :root, five metallic stops used only inside gradients, and three apply-form tokens. Black is the ground everywhere; gold is drawn, not poured.

Core tokens

INDEX.HTML :ROOT

Token	Name	HEX	RGB	VAR	Use
--BK	*Black*	#070605	7, 6, 5	--bk	Page background, html/body, selection text, favicon ground. Theme colour.

III · TYPEFACES

Two serifs, *one voice.*

Cormorant Garamond carries headlines and body — light, often italic. Cinzel carries everything set in tracked capitals: labels, wordmark, buttons, numerals. Both are served locally from fonts/.

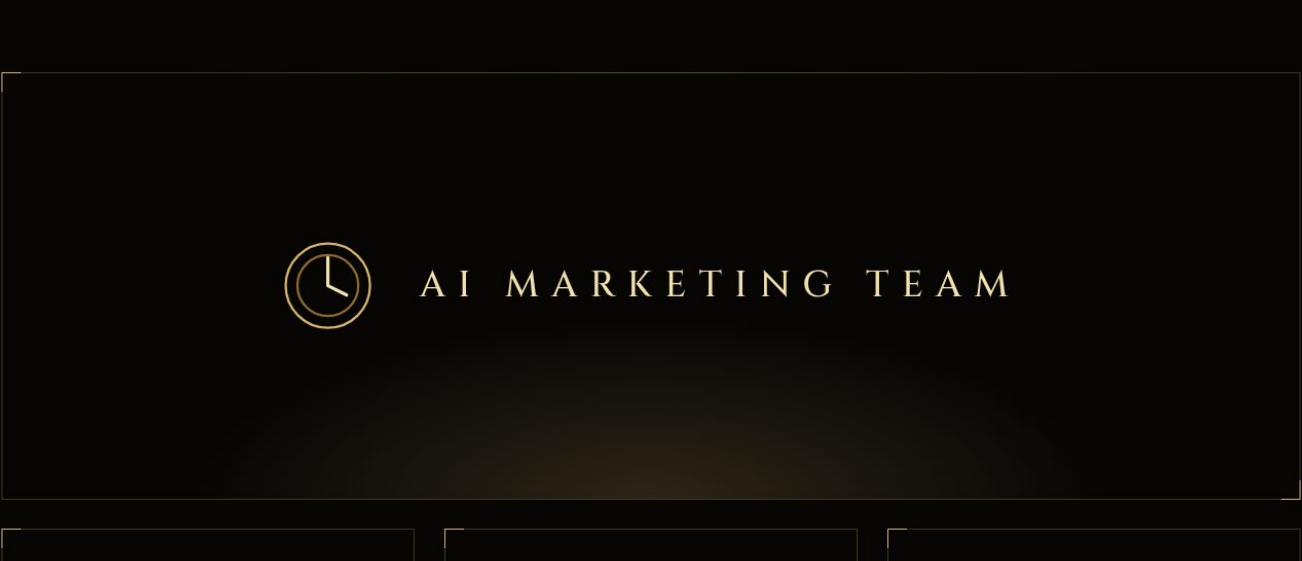
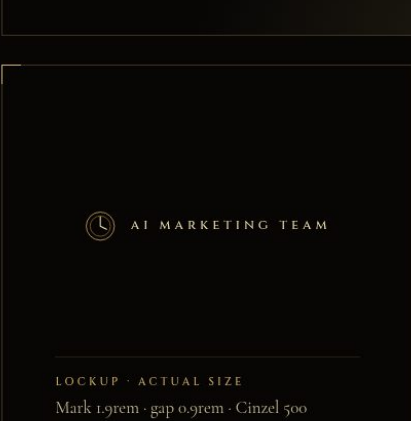
V · LOGO

Two rings, *two hands.*

A watch-face monogram: outer ring r18 in #D9B56B, inner ring r13 in #8F6B2E, and two hands in #F3E2B0 from centre to twelve and to roughly four. Flat 1px strokes on a 40x40 grid.





LOCKUP · ACTUAL SIZE

FAVICON

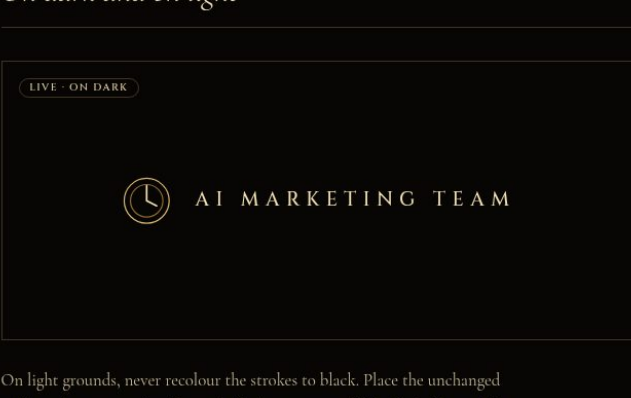
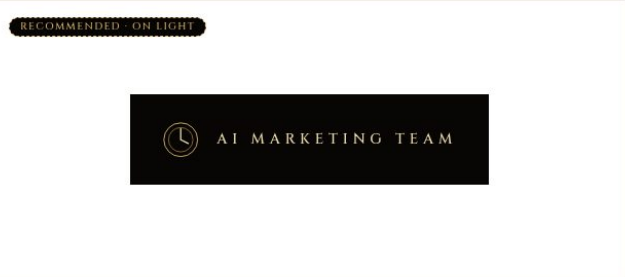
On dark and on light

RECOMMENDED FOR LIGHT

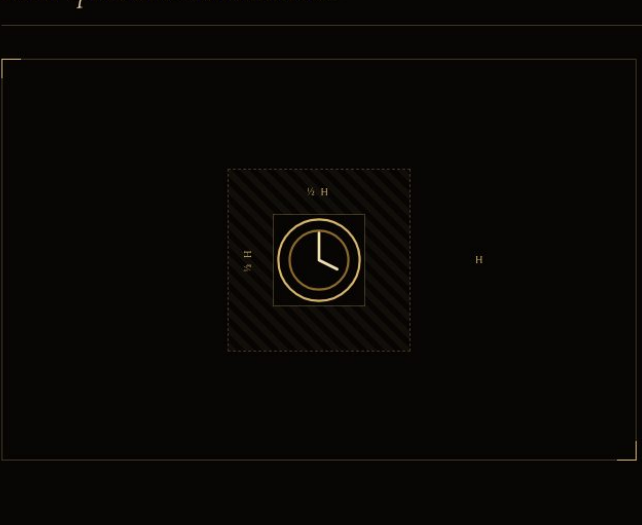




On light grounds, never recolour the strokes to black. Place the unchanged gold mark on a #070605 tile — the favicon pattern. Gold #D9B56B on white is 1.95:1 and fails WCAG.

Clear space and minimum size

RECOMMENDED



Keep clear space equal to **half the monogram height** on every side. The live header already does this: a 0.9rem gap beside a 1.9rem mark ≈ 0.5×.

ICON ONLY · 24PX MIN

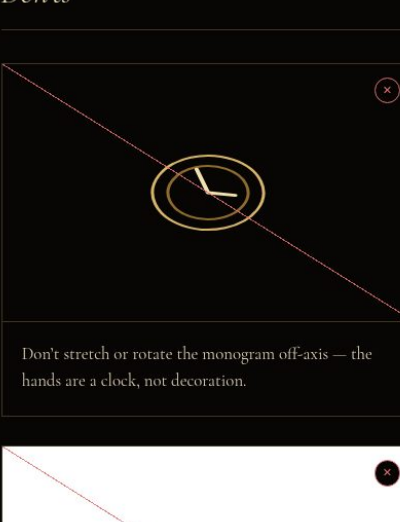
AI MARKETING TEAM

LOCKUP MIN · LIVE HEADER

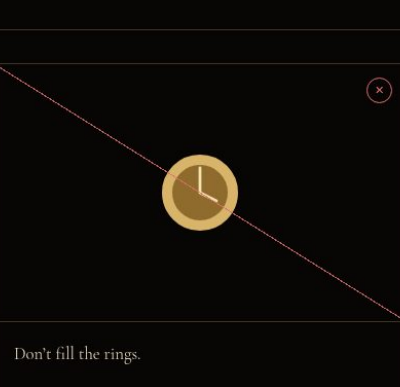
The live header lockup (1.9rem mark + 0.74rem wordmark) is the working minimum. Do not set the wordmark smaller.

Don'ts

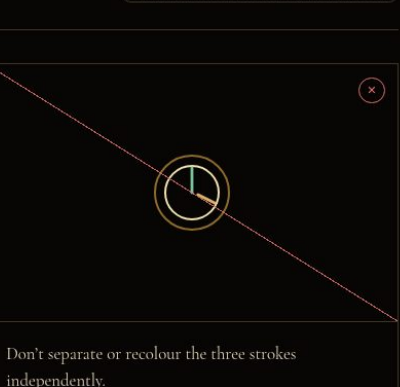
TOKENS.JSON LOGO.CLEARSPACE.DONTS



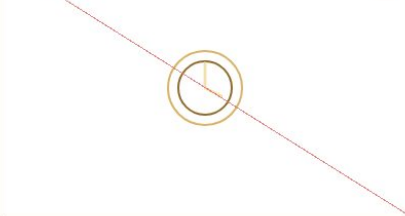
Don't stretch or rotate the monogram off-axis — the hands are a clock, not decoration.



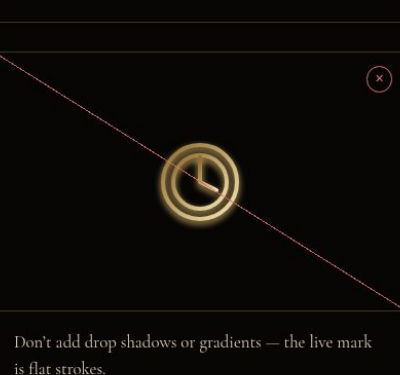
Don't fill the rings.



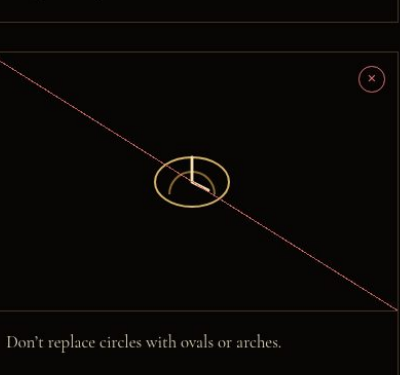
Don't separate or recolour the three strokes independently.



Don't place gold strokes on gold, pale gold or white without a black ground.



Don't add drop shadows or gradients — the live mark is flat strokes.



Don't replace circles with ovals or arches.

VI · BUTTONS

Sharp edges, *slow wipes.*

Three live treatments plus the text link. No radius anywhere. Labels are Cinzel 500 0.72rem, 0.3em, uppercase. The names Primary / Secondary / Ghost are RECOMMENDED — the site uses class names only.
